

Claudio Catriel Acevey Hipolito

Full Stack Developer

I'm a pragmatic problem-solver who enjoys adapting to new challenges and picking up new skills along the way. I work best in fast-paced environments where staying calm and using logic matter most. I value clear communication, open collaboration, and building a transparent, efficient workflow with my team.

Work Experience

Full Stack Developer | 42mate

Feb 2021 - Present · 5 years

- **Frontend Architecture & UI Performance:** Architected and delivered scalable, component-driven frontend applications using **React, Next.js, and TypeScript**, improving page load performance and user experience across enterprise platforms.
- **API & Backend Development:** Built resilient, asynchronous RESTful APIs using **FastAPI and Python**, designing efficient database schemas and queries in **PostgreSQL**.
- **Third-Party Systems & Monetization:** Led end-to-end integration of **Stripe payment pipelines**, ensuring idempotent transactions, webhooks handling, and secure checkout workflows.
- **Data & Analytics Infrastructure:** Implemented event tracking and user analytics frameworks via **Segment** to power data-driven product decisions.
- **State & Frontend Customization:** Developed complex state management architectures with Redux/Context API and created custom admin interfaces using Vue.js for Laravel Nova ecosystems.
- **DevOps & Quality Assurance:** Streamlined local/production environments using **Docker and Lando**; maintained high test coverage via **Pytest** and managed Git release tagging strategies.
- **Agile Leadership:** Collaborated in cross-functional Agile/Scrum teams, conducting peer code reviews and refining technical requirements alongside product owners and designers (Figma).

Technical Skills

- **Frontend:** React, Next.js, TypeScript, JavaScript (ES6+), Redux, Tailwind CSS, SASS, HTML5/CSS3.
- **Backend & Systems:** Python, FastAPI, Node.js, Express, NestJS, RESTful APIs, Asynchronous Programming, Microservices Architecture.
- **Databases & Cloud/DevOps:** PostgreSQL, SQL, Docker, Lando, CI/CD pipelines, Git.
- **Methodologies & AI:** GenAI/LLM Integrations, Scrum, Agile Software Development.
- **Testing & Integrations :** Pytest, Jest/React Testing Library, Stripe Payment Systems, Segment Analytics.

Languages

- **Spanish:** Native
- **English:** B2 (Upper-Intermediate)

Education

- **Computer Engineering** | University of Buenos Aires (UBA) — 2014 – 2018
- **IT Technician** | Technical School N° 1, Esteban Echeverría — 2009 – 2013
